Foundation:

The first Jordanian specialist in Computer Network Solutions, Hisham Qattan Establishment (HQ) was founded in 1984.

Company Overview

As Computer Network Solutions experts, HQ has successfully developed a highly qualified and professional technical staff consisting of designers, consultants, technician's installers and trouble-shooters.

Our satisfied clients can attest to be proud record of efficient and effective services.

Technology is an ever-expanding, continuously progressive field. At HQ we recognize the importance of keeping abreast of recent development in the world of technology. Constant on-the job training encourages familiarity with the latest state of the art tools and equipment from manufacturers of international repute. Moreover, we frequently attend, and actively participate in regional seminars and international exhibitions, such as CeBIT of Germany, Gitex of Dubai in order to stay informed of the new advancements in Computer Network Solutions. For Fiber Optic Cabling, whose impact on the industry has been revolutionary World-Wide, we are very qualified to render our services in the field as consultants, designers and installers of such networks supported with wide experience and high standard of performance.
